# GROVE, INC. Notes to Unaudited Condensed Consolidated Financial Statements

#### Note 1. Background Information

We are in the business of developing, producing, marketing, and selling raw materials, white label products and end consumer products containing the hemp plant extract, Cannabidiol ("CBD"). We sell to numerous consumer markets including the nutraceutical, beauty care, pet care and functional food sectors. We seek to take advantage of an emerging worldwide trend to re-energize the production of industrial hemp and to foster its many uses for consumers.

In addition, we are an operator of an annual tradeshow in the United States related to the CBD industry. The Company only has one trade show, CBD.IO, which is held in November each year. Because event revenue is recognized when a particular event is held, the Company experiences fluctuations in quarterly revenue based on the completion of the trade show event.

Grove, Inc. (the "Company") is a Nevada Corporation and has nine wholly owned subsidiaries, Trunano Labs, Inc., a Nevada corporation, Cresco Management, a California corporation, Steam Distribution, LLC, a California limited liability company; One Hit Wonder, Inc., a California corporation; Havz, LLC, d/b/a Steam Wholesale, a California limited liability company, Grove Acquisition Subsidiary, Inc, d/b/a VitaMedica a Nevada corporation, One Hit Wonder Holdings, LLC a California corporation, Infusionz LLC, a Colorado corporation and SWCH, a Delaware corporation.

#### Basis of Presentation and Principles of Consolidation

The Company's consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). The consolidated financial statements include the accounts of all subsidiaries in which the Company holds a controlling financial interest as of September 30, 2021 and June 30, 2021.

In the opinion of management, the unaudited interim condensed consolidated financial statements reflect all adjustments of a normal recurring nature that are necessary for a fair presentation of the results for the interim periods presented. All significant intercompany transactions and balances are eliminated in consolidation. However, the results of operations included in such financial statements may not necessary be indicative of annual results.

The significant accounting policies adopted during the 2022 fiscal year are as follows:

In August 2020, the FASB issued ASU 2020-06-Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging - Contracts in Entity's Own Equity, which simplifies the guidance for certain convertible debt instruments by removing the separation models for convertible debt with a cash conversion feature or convertible instruments with a beneficial conversion feature. As a result, convertible debt instruments will be reported as a single liability instrument with no separate accounting for embedded conversion features. Additionally, ASU 2020-06 requires the application of the if-converted method for calculating diluted earnings per share and the treasury stock method will be no longer available. The provisions of ASU 2020-06 are applicable for fiscal years beginning after December 15, 2021, with early adoption permitted no earlier than fiscal years beginning after December 15, 2020. The Company expects the primary impacts of this new standard will be to increase the carrying value of its Convertible Debt and reduce its reported interest expense. In addition, the Company will be required to use the if-converted method for calculating diluted earnings per share. We adopted ASU 2020-06 as of the beginning of our 2022 fiscal year. The adoption of this standard did not have a significant impact on our condensed consolidated financial statements as there were no unamortized beneficial conversion features as of June 30, 2021.

In December 2019, the Financial Accounting Standards Board ("FASB") issued ASU 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*, which removed certain exceptions related to the approach for intraperiod tax allocations, the calculation of income taxes in interim periods, and the recognition of deferred taxes for investments. This guidance also simplified aspects of accounting for recognizing deferred taxes for taxable goodwill. We adopted ASU 2019-12 as of the beginning of our 2022 fiscal year. The adoption of this standard did not have a significant impact on our condensed consolidated financial statements.

The Company uses the same accounting policies in preparing quarterly and annual financial statements, except for the adoption of ASU 2020-06 and ASU 2019-12 for the current fiscal year. Certain information and footnote disclosures normally included in the annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") have been condensed or omitted. These unaudited condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in the Company's annual audited consolidated financial statements as of and for the years ended June 30, 2021 and 2020 as filed with the Securities and Exchange Commission on September 28, 2021.

These fees were expensed in the three month period ended September 30, 2021.

	September 30, 2021
Dividend rate	-
Risk free interest rate	0.69%
Expected term	5
Expected volatility	69%
Grant date stock price	\$ 4.18

The basis for the above assumptions are as follows: the dividend rate is based upon the Company's history of dividends; the risk-free interest rate for periods within the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of grant; the expected term was calculated based on the Company's historical pattern of options granted and the period of time they are expected to be outstanding; and expected volatility was calculated based upon historical trends in Charlotte's Web Holdings, Inc. (CWBHF) stock prices for periods prior to the date the Company's trading information was available. Management selected Charlotte's Web Holdings, Inc. for it length of time as a publicly trading company and the similarities of the business and industry.

The Company periodically evaluates the realizability of its net deferred tax assets based on all available evidence, both positive and negative. The Company also considered whether there was any currently available information about future years. The Company determined that it is more likely than not that the Company will have future taxable income to fully realize the Company's deferred tax asset.

#### Note 14. Risks and Uncertainties

There is substantial uncertainty and different interpretations among federal, state and local regulatory agencies, legislators, academics and businesses as to the scope of operation of Farm Bill-compliant hemp programs relative to the emerging regulation of cannabinoids. These different opinions include, but are not limited to, the regulation of cannabinoids by the U.S. Drug Enforcement Administration, or DEA, and/or the FDA and the extent to which manufacturers of products containing Farm Bill-compliant cultivators and processors may engage in interstate commerce. The uncertainties cannot be resolved without further federal, and perhaps even state-level, legislation, regulation or a definitive judicial interpretation of existing legislation and rules. If these uncertainties continue, they may have an adverse effect upon the introduction of our products in different markets.

In December 2019, a novel strain of coronavirus (COVID-19) surfaced. The spread of COVID-19 around the world has caused significant volatility in U.S. and international markets. For the period ended September 30, 2021, the use of cash was primarily due to the \$2,000,000 paid for the acquisition of VitaMedica and \$166,869 in equipment purchases. In the prior year the cash provided by investing activities was from the net cash acquired in the purchase of Infusionz and the sale of fixed assets.

Net cash flows used by financing activities for the three months ended September 30, 2021, was \$150,000 compared to \$12,000 in the three months ended September 30, 2020. The use of cash in both periods was the repayment of notes payable.

Related to the acquisition of VitaMedica, the Company has agreed to \$1,000,000 in debt obligations and are payable within the next 12 months.

On October 19, 2021, the Company made a \$2,100,000 cash payment for the acquisition of Interactive Offers and committed to an additional \$600,000 cash payment in the form of an earnout payment based on certain revenue milestones in accordance with and subject to the terms and conditions of the I/O Agreement within the next 12 months.

We have sufficient working capital to fund our operations over the twelve months following the date of the issuance of these condensed consolidated financial statements and meet all of our debt obligations.

In December 2019, a novel strain of coronavirus (COVID-19) surfaced. The spread of COVID-19 around the world has caused significant volatility in U.S. and international markets. There is significant uncertainty around the breadth and duration of business disruptions related to COVID-19, as well as its impact on the U.S. and international economies and, as such, the Company has transition to a combination of work from home and social distancing operations and there has been minimal impact to our internal operations from the transition. The Company is unable to determine if there will be a material future impact to its customers' operations and ultimately an impact to the Company's overall revenues.

### Off-Balance Sheet Arrangements

There are no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

#### Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

#### Item 4. Controls and Procedures

#### **Evaluation of Disclosure Controls and Procedures**

Under the supervision and with the participation of our senior management, including our chief executive officer and chief financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of September 30, 2021 (the "Evaluation Date"). Based on this evaluation, our principal executive officer and principal financial and accounting officer concluded as of the Evaluation Date that our disclosure controls and procedures were not effective such that the information relating to us required to be disclosed in our Securities and Exchange Commission ("SEC") reports (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to our management, including our principal executive officer and principal financial and accounting officer, as appropriate to allow timely decisions regarding required disclosure. This conclusion is based on findings that constituted material weaknesses. A material weakness is a deficiency, or a combination of control deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's interim financial statements will not be prevented or detected on a timely basis.

In performing the above-referenced assessment, our management identified the following material weaknesses:

- (i) inadequate segregation of duties consistent with control objectives.
- (ii) lack of multiple levels of supervision and review.

### **Changes in Internal Control Over Financial Reporting**

There have been no changes in our internal controls over financial reporting (as defined in Rules 12a-15(f) and 15d-15(f) under Exchange Act) that occurred during the quarter ended September 30, 2021 that have materially or are reasonably likely to materially affect, our internal controls over financial reporting. We believe that a control system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the control system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within any company have been detected.

- (i) inadequate segregation of duties consistent with control objectives; and
- (ii) lack of multiple levels of supervision and review.

#### Remediation Plan

We believe the weaknesses and their related risks are not uncommon in a company of our size because of the limitations in the size and number of staff. Due to our size and nature, segregation of all conflicting duties has not always been possible and may not be economically feasible.

However, we plan to take steps to enhance and improve the design of our internal control over financial reporting. During the period covered by this quarterly report on Form 10-Q, we have not been able to remediate the material weaknesses identified above. To remediate such weaknesses, we plan to implement the following changes by the end of the 2021 fiscal year as resources allow:

- (i) Appoint additional qualified personnel to address inadequate segregation of duties and implement modifications to our financial controls to address such inadequacies; and
- (ii) We will attempt to implement the remediation efforts set out herein by the end of the 2021 fiscal year.

Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Management believes that despite our material weaknesses set forth above, our financial statements for the quarter ended September 30, 2021 are fairly stated, in all material respects, in accordance with U.S. GAAP.

#### **Changes in Internal Control Over Financial Reporting**

There have been no changes in our internal controls over financial reporting (as defined in Rules 12a-15(f) and 15d-15(f) under Exchange Act) that occurred during the quarter ended September 30, 2021 that have materially or are reasonably likely to materially affect, our internal controls over financial reporting. We believe that a control system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the control system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within any company have been detected.
